Corporate Profile

Anand Ishar Fastners is one of the leading manufacturers, suppliers, and exporter of tractor spare parts, tractor parts, auto parts, fastener items, and some special items and Hot Forged Nut Bolts, Spring Pins etc. Since 1996, we are also providing custom solutions to our customers as per their need and drawing. Our products meet all the requirements of our customers including simple and complex components. In addition to this, customization can be achieved at any level right from the raw materials used to the designs or finishing. Our flexibility of low volume to high volume quantity of parts further strengthens our position over competitors all around.

Working in the modern market scenario, we manufacture just the right kind of products like tractor spare parts, tractor hub, and bolts, tractor pins, tractor spares, auto spare parts, auto parts, fastener items like Hot Forged Nut Bolts, Spring Pins, and other special items according to given specifications. In the two decades, we have achieved terrific growth in terms of both size and volume as a manufacturer and supplier. A major portion of our supplies is dedicated to the domestic market. We are manufacturing some special items as per the client drawing and specifications and delivering on time.

Supported with the in-house, state-of-the-art production facilities, we have been manufacturing zero defect products on client specifications. Our products are made by the latest manufacturing techniques and machinery interlaced with the supervision of our highly competent and experienced production staff. We continue to invest in high-end technologies and compatible human resources to confront the market competition. Serving the markets for decades, we have developed an efficient supply chain management to better serve the clients.

We are engaged in manufacturing tractor spare parts, tractor parts, tractor hub bolts, auto spare parts, auto parts, fastener items, special items, hot forged nut bolts, spring pins etc.

Infrastructure Facilities:

Anand Ishar Fastners is backed with well-built infrastructure facility that spread across wide area. Our fully furnished infrastructural facility aids in fulfilling the bulk requirements, within stipulated time frame. To ensure streamlined flow of work and well-management of our workforce, we have strategically segregated our infrastructure into various departments. These departments work in close-cooperation with one another, thereby ensuring that quality products are rendered to the customers.

OUR INFRASTRUCTURE COMPRISES:

- Manufacturing department
- Quality monitoring department
- Research and development department
- Marketing and sales department
- Warehousing and storing department
